

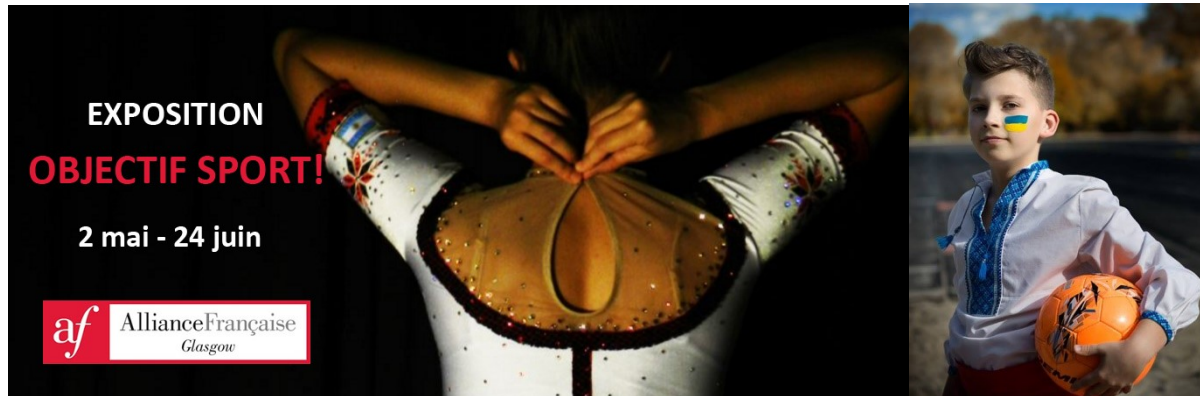

Photo exhibition: “*Objectif sport*”

Tuesday 2nd May to Saturday 24th June 2017

Each year, the *Fondation Alliance Française* in Paris runs an international photography competition within its worldwide network of *Alliances Françaises*. To underline and celebrate the numerous international and European sporting events which took place in 2016, the theme of last year’s competition was: “*Objectif sport!*”

Participants who took part found their own way to depict what sport means in their country. The *Alliance Française Glasgow* is delighted to present this special exhibition on a popular topic which carries essential values such as tolerance and open mindedness.

We will be running **special educational workshops in French in conjunction with the theme of sport for primary school pupils and their teachers who visit the exhibition.** Through a series of games and activities in French, pupils will learn about sport, sporting events and the values attached to them.

It will also be the occasion to develop French vocabulary around countries, nationalities, structure of sentences such as “*faire du/de la...*” and more!

-
- Duration of the workshop: **1hr**
 - Additional activities at the Library can also be arranged (30min approx.)
 - **Suitable for pupils in P3-P6**
 - These workshops are **free of charge**
