Fiona Pate

HMI formerly with Education Scotland, Independent Consultant

1+2 - Looking back, taking stock and driving forward.

Tomorrow starts here

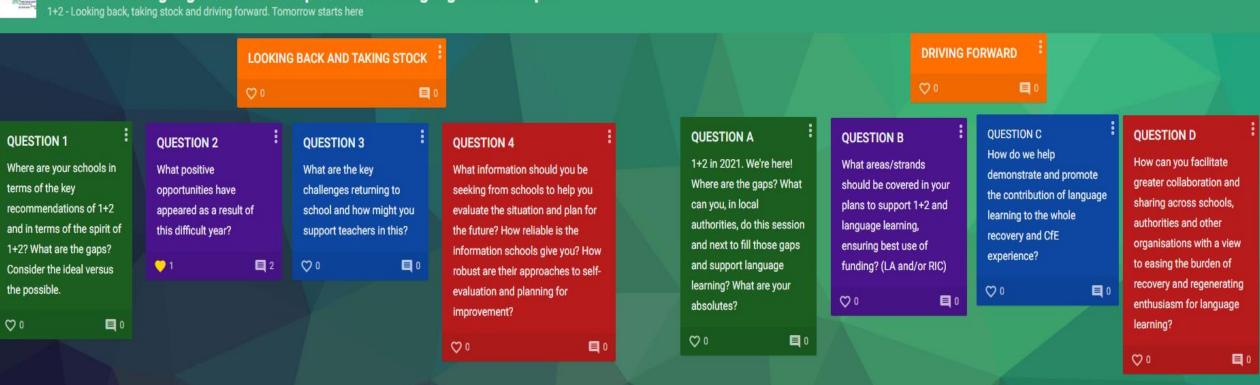

Padlet

B LANGS - 1h

LANGS: working together to develop Scotland's languages landscape

- Where are your schools in terms of the key recommendations of 1+2 and in terms of the spirit of 1+2? What are the gaps? Consider the ideal versus the possible.
- What positive opportunities have appeared as a result of this difficult year?
- What are the key challenges re returning to school and how might you support teachers in this?
- What information should you be seeking from schools to help you evaluate the situation and plan for the future? How reliable is the information schools give you?
 How robust are their approaches to self-evaluation and planning for improvement?

DRIVING FORWARD

- 1+2 in 2021. We're here! Where are the gaps? What can you, in local authorities, do this session and next to fill those gaps and support language learning? What are your absolutes?
- What areas/strands should be covered in plans to support 1+2 and language learning, ensuring best use of funding? (LA and/or RIC)
- How do we help demonstrate and promote the contribution of language learning to the whole recovery and CfE experience?
- How can you facilitate greater collaboration and sharing across schools, authorities and other organisations with a view to easing the burden of recovery and regenerating enthusiasm for language learning?
