# FEEDBACK 2013

## On our free Online resources for teachers

*Thank you very much for the fantastic resources and links to excellent materials which I will definitely use in my classes. I have always been impressed by the excellent resources and activities provided by the French Institute which inspire our pupils. You at the French Institute are now providing very good resources which show real understanding of the Scottish curriculum and what young people are interested in, from learning about life in France, its regions and culture and, of course film. “*
