

LFEE 3 week immersion courses in France and Spain

accredited by the GTC Scotland

This intensive three-week residential programme, which will be run by LFEE from July 4th to July 25th 2015, has been designed for qualified teachers who have gained a qualification as a language teacher and who need to undertake an approved period of residency to attain full registration from GTC Scotland.

The course will be held in Lyon and Malaga and delivered in the target language, providing teachers with the opportunity to immerse themselves in language learning.

The course is intended for qualified Secondary teachers who have gained a qualification as a language teacher and who wish to improve competency and performance in the teaching of Spanish and French. The course has been designed in line with the new Scottish Government 1+2 Language Initiative 2013–2020 and aims to enable teachers to:

- build upon their experience in the teaching and learning of their first foreign language and enhance their methodological expertise in the teaching and learning of Spanish/French;
- improve their competence and performance in French/Spanish at all levels;
- develop their cultural awareness and understanding of contemporary Spain/France;
- gain new ideas and materials for use in the classroom;
- use ICT, songs, media and other resources in the teaching of French/Spanish; and
- learn from and share good practice with other teachers from around Scotland and beyond.

An international course provider since 2002, LFEE already runs successful one- and two-week language courses in France and Spain, and the three-work course is an adaption of these shorter courses. Funding for the three-week intensive course will also be available under the ERASMUS+ programme.

About Professional Recognition

Professional Recognition is a programme that has been run by GTCS since 2005. All registered teachers who have completed one year of professional practice after gaining full registration with GTCS are eligible to apply for the award.

For more information on the programme and on the Erasmus+ funding, please contact LFEE Europe at info@lfee.net.
