## Free resources available to download now

The Creative Thinking in Literacy & Language Skills team are delighted to invite you to download and use a number of new resources.

The '[Creative Thinking training guidelines](#)' is a comprehensive resource for the teaching and learning of the fundamental principles of Creative Thinking.

Presented in a step-by-step format, this guide clearly explains the key principles of creative thinking along with accompanying exercises. The knowledge and exercises equip each learner with the building blocks of creative thinking, promoted as flexible units that can be reconstructed, repurposed and revised to suit any creative thinking opportunity.

Take advantage by downloading this free 40-page illustrated book.

Also available are [two sample creative thinking activities](#) for immediate use in your classroom, whether you are teaching literacy or languages.

Demonstrating how creative thinking methods can be deployed in the classroom, the samples provide an idea of what will be on offer in subsequent project publications.

Be sure to download all free materials now from the '[Resources](#)' section of the project web site.
