

Malaca Instituto - Introduction

Malaca Instituto is an award winning School of Spanish and is widely recognised amongst its peers to be one of the leading language schools. Dedicated to the teaching of Spanish for over 40 years, it is located in a residential suburb of Malaga, 15 minutes' bus-ride from the city centre and 10 minutes walk to the beach. The school and its residence create a mini-campus with outstanding leisure and learning facilities.

The complex includes 96 bedrooms, 25 classrooms, multi-media study centre, bar, restaurant, swimming pool, dance studio, multi-activity room, student lounge, mini-gym, 3 terraces and gardens. Our students come from over 40 different countries and can be aged from 16 – 90! All this produces a truly multi-cultural and exciting environment.

The school is highly academic but you will also have a good time! We produce most of our own textbooks and supplementary materials. The involvement of our senior teachers in these projects creates a stimulating academic environment in the school and is crucial in the provision of the high quality teaching we aspire to.

Our activities department helps our students get to know Malaga and Andalucia, their peoples and traditions and also to have fun while getting to know their fellow students. The programme includes dance classes, tapas tours, cookery classes, walking tours of Malaga, cultural talks, excursions to Granada, Sevilla, Cordoba and full weekends in Morocco.

In addition to the accommodation in the school itself we also offer selected host families and shared student apartments. Everyone will find accommodation to suit their tastes and pockets.

Malaca Instituto has won the Study Abroad industry Star Award for School of Spanish worldwide 5 times and is therefore one of only 9 language schools in the world to have achieved Super Star status.

Key characteristics of the school

The key distinguishing points of Malaca Instituto are:

- **Mini-campus:** unique in a language school in Spain this provides security and convenience and creates a very welcoming atmosphere, great for social and professional networking.
- **Our team:** with an average of around 60 staff our students receive a very high level of attention. The average length of service of our full-time teachers is over 15 years.
- **Our students:** we have students of all ages from 16-90. School and college students, young professionals, executives and diplomats, teachers and retired people – all find themselves at home here.

- **Services:** our catering services are open all day, there is wi-fi in all the common areas, the reception is staffed 24 hours per day and the study centre is open weekends as well as during the week.

For these reasons we receive clients and students from diplomatic corps, top companies and prestigious universities from around the world. Our membership of EAQUALS and IALC and Accreditation by the Instituto Cervantes confirms this quality.
