

LFEE EUROPE ICT Training Course in EDINBURGH

SATURDAY 6 DECEMBER 2014

Overview

This interactive course will show how tablets and new online tools can be used for supporting the Scottish Government 1+2 Language Initiative.

The use of new technologies in the classroom is positive and stimulating both for pupils and teachers. This practical course aims to equip teachers and their learners with the skills and knowledge to use tablets and online tools efficiently in the language class at all levels and across the 4 competences.

Participants are supported throughout the course by tutors who have a great experience in using an inspiring range of apps and online tools for the teaching of languages in Scotland.

Who: Primary and secondary language teachers

When: **Saturday 6 December 2014 - 9.30am-12.30pm**

Where: Edinburgh (venue to be confirmed)

Fees: £40 per participant

Pre requisite: none

What do I bring: A laptop, an ipad or a tablet if you have one. We will provide the croissants!

Course Objectives:

- Motivate your pupils by using a "flipped classroom" approach
- Enhance your MFL topics by adding fun apps to your lessons
- Use video more effectively in MFL lesson
- Increase the opportunity to be creative and add a cross curricular dimension to your MFL classroom
- Challenge your pupils to raise their level of MFL in reading, writing, listening and speaking/talking
- Get your pupils to work independently on languages.

Don't wait to book your place!
