

The Our Europe Film Making Project 2015-16 has Launched!

After the success of last year's Our Europe, the film making project for S3 – S6 pupils has launched for another year. This innovative, educational project, run by the Scottish European Educational Trust, asks pupils to work in teams of four to come up with an idea for a short film based on how being a European citizen affects them as young people living in Scotland. The concept must creatively address European issues as well as include at least one language other than English. All pupils have to do to enter is send their ideas in storyboard form to the SEET office by 10th December 2015. Up until this deadline, SEET staff will be making visits out to schools to run workshops on storyboarding and planning as well as helping schools to establish links with partner schools abroad (so pupils can discuss their ideas with peers in other countries before submitting them).

Once all the entries have been submitted 18 teams will be invited to attend one of our three workshop days (held across Scotland) where pupils can work with film making professionals to turn their ideas into real films. Pupils spend the day receiving training then subsequently filming and editing the idea outlined in their initial entries.

The final stage of the project will be a premiere/awards ceremony, where all 18 teams come together to watch their films for the first time and receive awards in recognition of their achievements throughout the process.

Our Europe is a great way to get pupils engaged in language learning, boost their confidence and develop their core skills. If you would like to know more about the project, or arrange a school visit, please contact madeleine@seet.org.uk.
