

ERASMUS+

FOR SCHOOLS

There are **different opportunities** for pupils, staff and organisations through Erasmus+.

For pupils

Travel to a **host school** in another country, either individually or as part of a group, to take part in **learning activities**.

For staff

Travel abroad to **teach** or **job shadow** in another school, or take part in a **training course**.

For schools

Build **partnerships** with schools overseas and **collaborate** on joint **projects** to achieve shared goals.

The **British Council** will be the **National Agency**, responsible for delivering **Erasmus+** in the UK.

WHY TAKE PART IN ERASMUS+?

Learning beyond the classroom

Pupils broaden their horizons, build confidence and develop real-world skills through experiences that bring the curriculum to life.

Build your professional practice

Staff can develop their professional practice and build valuable international links, returning with new insights and fresh ideas for the classroom.

Open doors for your whole school

Schools can build international partnerships that inspire new ways of working and open up life-changing opportunities for pupils and staff.

Be part of something bigger

By taking part, you help strengthen the education system by promoting high-quality teaching, inclusion, and international collaboration that benefits schools and the wider community.

WHAT DOES A PROJECT LOOK LIKE?

When an organisation applies for Erasmus+ funding, it applies for a “**project**”. There are two main types: mobility projects and partnership projects.

A MOBILITY PROJECT

LANGUAGES TRIP TO LYON

A UK secondary school sends its French GCSE group to Lyon for a short immersion visit. Students join lessons at a partner collège, complete a simple language project together, and visit cultural sites linked to their curriculum.

A PARTNERSHIP PROJECT

GREEN LEARNING PARTNERSHIP

A UK school partners with schools in Malmö and Helsinki to strengthen climate and sustainability education. Pupils collaborate on projects focused on environmental responsibility, developing shared learning resources used in lessons across partner schools.

Find inspiration from successful Erasmus+ projects on the [**Erasmus Project Results Platform**](#).

HOW DO I GET INVOLVED?

The next **funding round** is expected to open in **November 2026**. The steps below outline the typical application process to help you start thinking about what you'll need to prepare.

Step 1

Define your project

Choose your project type (mobility or partnership) and make sure it supports at least one Erasmus+ priority.

Step 2

Register your organisation

Your organisation will need to register on the appropriate platform for your project type to receive a registration code. If you are already registered, you can reuse your existing code.

Step 3

Find your partner(s)

Connect with an eligible organisation that shares your goals. You can use online partner-finding tools if needed.

Step 4

Develop your proposal

Agree your timeline, activities and expected results with your partners.

Step 5

Submit your application

Consult the Programme Guide for application details, including forms and deadlines.
