

Costume

When you are preparing a presentation or performance, you may need to show your character in costume. Using costume helps to show the audience:

- The characters' age
- The characters' status
- The time period in which the play is set

Research the time period in which the Champollion play is set.

- What type of clothing was being worn by both the rich and the poor?
- What materials were being used to make clothing at that time?
