

## Magic Bag Challenge

Weather practice (or any themes you find props for).

Build your *magic bag* collecting objects that you can associate with a type of weather:

- Il fait beau : a small ball (playing outside?)
- Il fait mauvais : a book (reading indoors?)
- Il fait chaud : a fan (hot)
- Il fait froid : a woolly hat / a hot water bottle?
- It could be anything as long as you show the learners each prop and clarify its association with the weather.

In turn, learners choose an object and, eyes closed, they have to identify it and name the associated weather.

### Language:

Regardez bien!

Show the ball : il fait beau

Show the book : il fait mauvais etc...

Écoutez et répétez

Maintenant ... "Patrick" ferme les yeux, choisit un objet

Quel temps fait-il ? Devine !

"Patrick" suggests " Il fait ....."

Reinforce asking the class:

" Il fait...? "

Saying : "oui, il fait...." Or: " Non ...."

If successful, ask the class to repeat again "Il fait...."

Passe le sac !
